

# 大模型代理服务使用指南

使用云市场接口地址，遵循云市场接口协议，在 header 中设置对应的 APPCODE，按 openai 官方接口文档构造请求体，即可调用大模型服务。

接口使用示例：

## 聊天接口

```
curl https://llm.market.alicloudapi.com/v1/chat/completions \
  -H "Content-Type: application/json" \
  -H "Authorization: APPCODE $APPCODE" \
  -d '{ "model": "gpt-3.5-turbo", "messages": [ { "role":
"system", "content": "You are a helpful assistant." }, { "role":
"user", "content": "Who won the world series in 2020?" },
{ "role": "assistant", "content": "The Los Angeles Dodgers won
the World Series in 2020." }, { "role": "user", "content": "Where
was it played?" } ] }'
```

## 文本转语音

```
curl https://llm.market.alicloudapi.com/v1/audio/speech \  
  -H "Authorization: APPCODE $APPCODE" \  
  -H "Content-Type: application/json" \  
  -d '{ "model": "tts-1", "input": "Today is a wonderful day to  
build something people love!", "voice": "alloy" }' \  
  --output speech.mp3
```

## 语音转文本

```
curl --request POST \  
  --url  
https://llm.market.alicloudapi.com/v1/audio/transcriptions \  
  -H "Authorization: APPCODE $APPCODE" \  
  --header 'Content-Type: multipart/form-data' \  
  --form file=@/path/to/file/openai.mp3 \  
  --form model=whisper-1
```
